

Southeast Missouri Hospital College of Nursing and Health Sciences offers a Certificate in Surgical Technology. Upon completion of this program graduates have met the educational requirements necessary to be eligible to take the national certification examination offered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA) to hold the credential of Certified Surgical Technologist (CST).

Surgical technologists are allied health professionals who are an integral part of a team of medical practitioners providing surgical care to patients in a variety of settings.

The surgical technologist works under medical supervision to facilitate the safe and effective conduct of invasive surgical procedures. This individual works under the supervision of a surgeon to insure the operating room environment is safe, equipment functions properly, and the operative procedures is conducted under conditions that maximize patient safety.

A surgical technologist possesses expertise in theory and application of sterile and aseptic technique. The technologist combines knowledge of human anatomy, surgical procedures, implementation of instruments, and techniques to facilitate the surgeon's performance of invasive therapeutic and diagnostic procedures
